Work Experience

Software Engineer (Front-end & back-end web developer)

2019 - Present

Self-Employed (Freelancer)

- Developed and maintained responsive websites using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal user experience.
- Implemented dynamic features and interactive functionality using PHP, MySQL, AJAX, and jQuery.
- Collaborated with the design team to create visually appealing user interfaces and seamless user interactions.
- Optimized website performance by identifying and resolving issues related to code efficiency, caching, and database optimization.
- Integrated third-party APIs for enhanced functionality, such as payment gateways and social media integrations.
- Collaborated with cross-functional teams to gather requirements, prioritize tasks, and meet project deadlines.
- Stayed up-to-date with emerging web technologies and trends, incorporating them into projects to enhance functionality and user experience.

Education

Self-Study and Online Learning

2019 - Present

W3schools, Barnej, Edraak

- Dedicated significant time and effort to self-study web development through online resources, including W3schools, Barnej, and Edraak.
- Developed a strong foundation in programming languages, including HTML, CSS, JavaScript, PHP, and MySQL.
- Demonstrated a proactive approach to learning, consistently exploring new concepts, and seeking out challenging projects to enhance skills.

Certificates

February
2020

Advanced Excel skills / From: Edraak

July 2020

Creating and designing websites without programming / From: Barnej.com
